# CANDELABRA AIR TERMINAL 48" W/ OFFSET STAINLESS STEEL LM-CA-48-CAM

**APPLICATION:** For use wherever an air terminal (lightning rod) is appropriate and streamer delaying, or static dissipating qualities are desired. These dissipators are used in place of standard air terminals in a structural lightning protection system installed to UL-96A and NFPA 780 specifications. Terminal is mounted to the base most suitable to the structure on which it is being installed.

**DESCRIPTION:** 5/8"X48"w/ 1/2" hole solid stainless steel w/ 6" offset. (Unless specified otherwise)
