CANDELABRA AIR TERMINAL 18" STAINLESS STEEL LM-CA-4S-18

APPLICATION: For use wherever an air terminal (lightning rod) is appropriate and streamer delaying, or static dissipating qualities are desired. These air terminals are used in place of standard air terminals in a structural lightning protection system installed to UL-96A and NFPA 780 specifications. Terminal is mounted to the base most suitable to the structure on which it is being installed.

DESCRIPTION: 5/8"X18" w/ 1/2" thread solid stainless steel.
(Unless specified otherwise)

Note: Bases are sold separately
