ULTRA - SHARP POINT 18" AIR TERMINAL CLASS III STAINLESS STEEL

LM-PP33-18
(Formerly LM-PP32M)

APPLICATION: UL listed air terminal (lightning rod) suitable for use in any NFPA 780 or UL 96A system where streamer delaying or static dissipating qualities are desired.

DESCRIPTION: 5/8" X 18" solid stainless steel air terminal with 1/2" thread, 1/2" lock washer and jam nut. These are blunt lightning rods with streamer-delaying electrodes. Electrodes are available in stainless steel, Hastelloy®, or titanium. Bases and mounting hardware are supplied separately.
