ULTRA-SHARP POINT 60" AIR TERMINAL w/ OFFSET CLASS I ALUMINUM

LM-PP31A-60-VVP

APPLICATION: UL listed air terminal (lightning rod) suitable for use in any NFPA 780 or UL 96A system where streamer delaying or static dissipating qualities are desired. Used wherever an offset is required.

DESCRIPTION: 1/2" X 60" aluminum air terminal w/ 6" offset, 1/2" thread, 1/2" lock washer and jam nut. These are blunt lightning rods with ultra-sharp point electrodes. Electrodes are available in stainless steel, Hastelloy®, or titanium. Bases and mounting hardware are supplied separately.
