ULTRA-SHARP POINT 36" AIR TERMINAL w/ OFFSET CLASS III STAINLESS STEEL

LM-PP33-36-VVP
(Formerly LM-PP32M)

APPLICATION: UL listed air terminal (lightning rod) suitable for use in any NFPA 780 or UL 96A system where streamer delaying or static dissipating qualities are desired. Used wherever an offset is required.

DESCRIPTION: 5/8" X 36" solid stainless steel. These are blunt lightning rods with ultra-sharp point electrodes. w/ 6" offset, 1/2" thread, 1/2" lock washer and jam nut. Electrodes are available in stainless steel, Hastelloy[®], or titanium. Bases and mounting hardware are supplied separately.
